### REFERENCE FOR *CLELANDS CONSTRUCTION LIMITED*

It gives us great pleasure to be able to provide a reference for *Clelands Construction Limited*.

During 2006/2007 *Clelands* constructed a new office building for our accounting practice. They began by recommending two architects who they have worked with on previous occasions. We engaged one of the architects recommended and are very pleased with his design work and performance. The relationship between the architect, *Clelands* and ourselves was extremely good.

*Clelands* provided us with a fixed price contract and an eight month build time. The building came in on price with no cost overruns. Construction was completed a week prior to the target date.

During the construction period we attended regular site meetings. We were impressed with the organisation and commitment to excellence shown by the Site Foreman, Steve Gerrand, and the Project Manager, Martin Stephens. They ensured subcontractors completed critical tasks by key dates which was fundamental to having the building completed on time.

Following completion and occupation of the building we have had a small number of minor teething problems. *Clelands* have been excellent in following these up and rectifying them.

The build quality and finish to our new office building is of an extremely high standard. We are delighted with the finished product and have no hesitation in recommending *Clelands Construction Limited* as a builder of first choice.

Yours faithfully
