

To Whom It May Concern:

Re: Energyworks Ltd New Workshops and Administration Facilities

- Clelands Construction were contracted to build Energyworks new facilities in Connett Road, Bell Block, New Plymouth in 2005.
- Clelands managed the project professionally, completed ahead of schedule and maintained a very high standard.
- Basically I am very pleased with Clelands performance. They gave me the confidence to leave them to it and concentrate on managing my business. As such I have no hesitation in recommending Clelands Construction for similar industrial projects.

Yours faithfully
ENERGYWORKS LTD
