TO WHOM IT MAY CONCERN:

Dear Sir/Madam,

Re. Howard Wright Limited Manufacturing Facility

In 2004 Howard Wright Properties Limited selected Clelands Construction Limited (hereafter Clelands) to construct the new Howard Wright Limited (hereafter Howard Wright) manufacturing facility at Paraite Road, Bell Block, New Plymouth.

Howard Wright required a high quality facility that reflected the precision engineering nature of their business and that would assist them in marketing their business. Clelands team lead by Martin Stephens achieved this goal within the tight project time frame and budget.

Clelands provided on-site project supervision at all times and their own team undertook significant aspects of the work supported by a range of specialist sub-contractors.

Clelands held weekly site meetings throughout the project duration involving the project architects, structural engineers, quantity surveys and Howard Wright representatives. At all times their communication with these parties was open and professional ensuring a successful outcome for all stakeholders.

We have no hesitation in recommending Clelands to potential clients seeking a high quality construction and professionally managed project.

Yours faithfully,

Bruce Moller
Chief Executive Officer
