

11 December 2007

Martin Stephens
Clelands Construction Ltd
61 Katere Road
NEW PLYMOUTH

Dear *Martin*

OUR NEW HOME

I write as Chairman to say a very special thank you to YOU.

The official Opening of our new home was stunning for a number of reasons. It:-

- Made a special statement about your special contribution
- Spelt out your very special approach to what some would have said was an unachievable goal
- Saw your preparation and planning come to fruition in a very big way
- Showed our peers in the national sporting industry exactly what this organisation, you and the people of Taranaki are really made up of

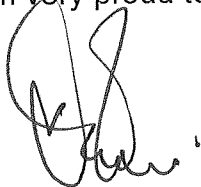

I was very proud and emotional on the day (and tried in vain not to show it). The main reason for that is my understanding of combined contributions to make our goal possible.

The difference between dreams, flights of fancy and completing a seemingly impossible project, is special people. That's YOU!

Thank you for your patience and going the "extra mile". Your contribution shows and the eyes and ears of New Zealand will watch to see if we can develop our new home into something even more special. Let's make this years milestone our baseline.

Thank you again for changing our regional landscape and ability to determine Taranaki's future positive direction.

I am very proud to work with you.

David Lean QSO JP
Chairman

Very special thanks.
