

6 December 2007

Alistair Dore
Clelands Construction Ltd
PO Box 3240
NEW PLYMOUTH

Dear Alistair

I would like to take this opportunity to sincerely thank Cleland's Construction Limited for constructing our new headquarters at Yarrow Stadium.

Our Trustees, staff and stakeholders are thrilled with the new building which is soundly constructed and the finish of very high quality.

It should be noted that there was no cost increase on the original fixed term contract (only our requested variations), and that the project was complete on time. In February 2007, you stated the project would be complete on 8 November 2007, and impressively it was.

We can't speak highly enough of your friendly and professional service. The reporting templates provided by Clelands which outlined timelines, activities for the period and progress payments were excellent resources for our management and board.

The Cleland's staff were a pleasure to work with and always happy and willing to accommodate our changing needs.

We enjoyed working with you and the Cleland's team and would have no hesitation in recommending your company to other organisations.

Yours sincerely
