Martin Stephens
Director
Clelands Construction Ltd
Po Box 3240
New Plymouth

20 May 2008

Dear Martin,

I would like to express my very sincere thanks and appreciation to you and your staff for the completed building project at Omahanui Special Care Unit.

The finished building has far exceeded my expectations and I am very proud of it. The quality of the workmanship is superb and the attention to detail is to be commended.

Your staff, under Steve Gerand's foremanship were courteous to residents and staff and minimized any disruption to us that could have so easily occurred. The Directors of Clelands should be very proud of them all and of the result they achieved.

On a personal note thank you Martin for your professional approach, your courtesy and your kindness to me. You made the whole process stress free and enjoyable.

Clelands will always be my builders of choice and whatever project I decide to undertake and I am happy to recommend your company to anyone undertaking similar projects, and to offer prospective clients an opportunity to view what Clelands have achieved for me.

With my sincere thanks and best wishes,

Pat Wesley JP
Director
Omahanui Special Care Unit.
